

BWT ESSENTIAL ES700

IN-DEPTH CLEANING MADE EASY.

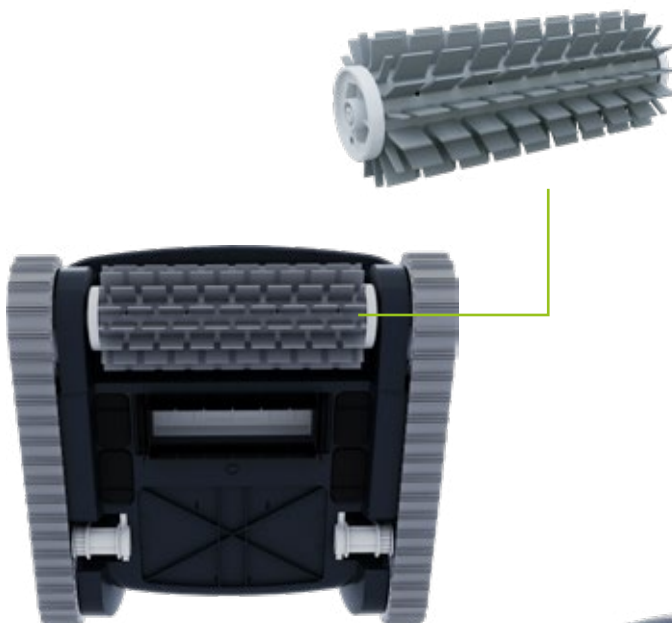

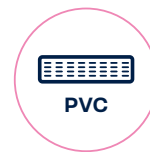

For You and Planet Blue.

 **BWT**
BEST WATER TECHNOLOGY

Experience effortless pool maintenance with the **BWT ES700**.

Thanks to its lightweight and compact design, it is easy to handle and store.

Its PVC brush ensure in-depth cleaning of all types of surfaces, while its 2-hour cycle time means less time cleaning and more time enjoying your pool!

PRODUCT ADVANTAGES QUICK VIEW

- 1 cleaning mode : simply push the "ON" button and it gets to work!
- Cleans the floor, walls and waterline
- Impressive suction power
- Lightweight, only 5.75 kg
- Excellent value for money

Patented Anti-Entanglement System: Smart Cable Control

Equipped with BWT's patented **Smart Cable Control** (SCC) technology, the ES700 optimises its trajectory in real time thanks to integrated sensors and our

Gen Core 7 navigation system. No more tangled cables! The robot moves smoothly and efficiently, giving you complete peace of mind.

Lightweight and easy to handle:

Weighing in at 5.75 kg, the ES700 can be transported and set up effortlessly. Its rapid water evacuation system makes removing it from your pool a breeze.

Adapted to its environment:

Its 2-hour cycle time allows you to clean your entire pool in one go, including the floor, walls and waterline. For use in pools up to 10 metres, all shapes and finishes. Simply push the "ON" button and watch your robot get to work!

Effective brush and powerful suction:

The PVC brush combined with its impressive 15 m³/h suction power, ensure in-depth cleaning, removing algae, debris, and other impurities.

Smart navigation:

The ES700 adapts its driving pattern to your pool shape thanks to its integrated gyroscope. It can also rotate on itself to avoid scattering debris!
